**Notes:**

Districts of NCR cover the following:

1st District - Manila

2nd District - Mandaluyong, Marikina, Pasig, Quezon City, and San Juan

3rd District - Valenzuela, Caloocan City, Malabon, and Navotas

4th District - Las Piñas, Makati, Muntinlupa, Parañaque, Pasay City, Pateros, and Taguig

**Poverty Threshold (P) or Poverty Line** refers to the cost of the basic food and non-food requirements (valued in peso). The basic non-food requirements cover the non-food expenditure items of the Total Basic Expenditures. In the Philippine official methodology, the poverty line may be viewed as the minimum income required to meet the food requirements and other non-food basic needs.

**Poverty Incidence** refers to the proportion of families ( or population) with per capita income less than the per capita poverty threshold to the total number of families (population). (1997 Philippine Poverty Statistics, NSCB)

**Source: National Statistical Coordination Board (NSCB)**

**Notes:**

Districts of NCR cover the following:

1st District - Manila

2nd District - Mandaluyong, Marikina, Pasig, Quezon City, and San Juan

3rd District - Valenzuela, Caloocan City, Malabon, and Navotas

4th District - Las Piñas, Makati, Muntinlupa, Parañaque, Pasay City, Pateros, and Taguig

**Food Threshold (FT)** – refers to the cost of the food required to satisfy nutritional requirements for economically necessary and socially desirable physical activities. The nutritional requirements are determined by the Food and Nutrition Research Institute of the Department of Science and Technology. Currently, these are based on 100% adequacy for the Recommended Dietary Allowances for protein and energy equivalent to an average of 2000 kilocalories per capita, and 80% adequacy for the other nutrients. The Food Threshold is computed for each province with urban-rural disaggregation

**Subsistence Incidence** refers to the proportion of families (or population) with per capita income less than the per capita food threshold to the total number of families (population).

**Notes:**

Districts of NCR cover the following:

1st District - Manila

2nd District - Mandaluyong, Marikina, Pasig, Quezon City, and San Juan

3rd District - Valenzuela, Caloocan City, Malabon, and Navotas

4th District - Las Piñas, Makati, Muntinlupa, Parañaque, Pasay City, Pateros, and Taguig

**Gini Ratio** - the ratio of the area between the Lorenz curve and the diagonal (the line of perfect equality) to the area below the diagonal. It is a measure of the inequality in income distribution, with limits 0 for perfect equality and 1 for perfect inequality.

**Income Gap** refers to the average income shortfall (expressed in proportion to the poverty line) of families with income below the poverty threshold (1997 Philippine Poverty Statistics, NSCB)

**Poverty Gap** is the total income shortfall (expressed in proportion to the poverty line) of families with income below the poverty threshold, divided by the total number of families (1997 Philippine Poverty Statistics, NSCB).

**Severity of Poverty** is the total of the squared income shortfall (expressed in proportion to the poverty line) of families with income below the poverty threshold, divided by the total number of families. This is equal to the Foster-Greer-Thorbecke (FGT) family of measures with  $a=2$ . It is a poverty measure which is sensitive to the income distribution among the poor – the worse this distribution is, the more severe poverty is.

In the Philippines, the HDI is measured by taking the average of (1) life expectancy; (2) weighted average of functional literacy and combined elementary and secondary net enrolment rate; and (3) real per capita income.

**Life Expectancy** refers to the average number of years a person is expected to live from the time of his/her birth; also referred to as life expectancy at birth (NSCB 1999)

**Functional Literacy** represents a significantly higher level of literacy that includes reading, writing, and numeracy skills. These skills must be sufficiently advanced to enable the individual to participate fully and effectively in activities commonly occurring in his life situation that require a reasonable capability beyond oral and written communication (NSCB 1999)

**Combined Enrolment Rate** derived in this report as the ratio of the sum of elementary and secondary enrolment in the corresponding age group that should be enrolled at those levels to the sum of corresponding school age population

**Net Enrolment Rate** – pertains to the ratio in a given year of enrolment at a given level of education in the age group which should be enrolled at that level to the corresponding population; also referred to as a participation rate (NSCB 1997)

**Real Per Capita Income** – derived by deflating the average per capita income data generated from the Family Income and Expenditures Survey (FIES) using the corresponding provincial consumer price index with 1994 as the base year.

**Consumer Price Index** – measures the average changes in the retail prices of a fixed basket of goods and services usually purchased by households for their consumption (NSCB 1999)

**Notes :**

1/ The Average Monthly Crime Rate refers to the number of incidents for every 100,000 population in a certain area and illustrating, therefore, significant correlations between population growth and crime occurrence.

2/ Crime Solution Efficiency is the percentage of solved cases out of the total number of reported crime incidents handled by police units/offices for a given period of time. It is general measure of PNP's investigative capability or efficiency.
